SEEKING WORK

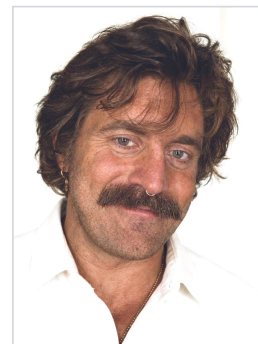

Bournemouth

STRENGTHS

Listening and communication

APPROACH

Considerate and practical

Approachable professional seeking a customer-facing role in a café, hospitality or retail team in Bournemouth. My background in NHS and private therapy, alongside client-facing software work, has centred on listening carefully, understanding what people need and helping them feel at ease. I bring clear communication, patience and a practical approach to solving problems, and am keen to learn the day-to-day routines of a service role.

WHAT I BRING

- **People skills:** experienced in building rapport, listening without judgement and explaining things clearly to people with different needs.
- **Calm, considerate service:** used to sensitive conversations and responding thoughtfully when someone needs extra support.
- **Teamwork:** worked in a five-person engineering team, collaborated across roles and mentored junior colleagues.
- **Care and accuracy:** experience working within clinical and regulated environments where procedures, confidentiality and attention to detail matter.
- **Learning and problem-solving:** comfortable learning new systems, helping others use them and working through practical problems.

RELEVANT EXPERIENCE

Cognitive Behavioural Therapist | NHS and private practice | 2004-2026

- Worked directly with people across NHS and private settings, building trusting relationships and adapting communication to individual needs.
- Maintained a small private caseload alongside engineering work, combining direct support with professional responsibilities.

Software Engineer | Oceanheart.ai, independent | Oct 2024-present

- Work directly with clients to understand their requirements, explain options and provide ongoing support.
- Help non-technical business owners use and maintain their websites and customer-facing systems.

Full Stack Engineer | Loans by MAL, contract | May-Jun 2026

- Delivered a customer-facing system for a regulated lender, following defined requirements and ensuring sensitive situations were referred to a person.

Software Engineer | Brandwatch and EDITED | Jun 2021-Mar 2024

- Brandwatch: Jun 2021-Nov 2023. Collaborated in a team of five and mentored junior developers.
- EDITED: Nov 2023-Mar 2024. Worked with colleagues on a retail analytics product and enterprise integrations.

Earlier software roles | Apr 2019-Feb 2021

School Business Services, Appius and Telesoft Technologies: work on school finance systems, customer portals and secure applications.
